597	19	SOLD!	Brochmann & Kjeldstadli	\$2.00	Immigration from Norway. In Norwegian. A concentrated and versatile account of more than a thousand years of immigration - from the year 900 to 2010. Monasteries, Hanseatic monks, rallies, guest workers, labor immigrants, refugees and asylum seekers came to Norway. Who were the first ones, where did they come from and why did they come here? Immigration creates change in working life, administration, welfare and culture. What subjects, knowledge and customs have the newcomers brought with them? How were they met in this country? Brochmann and Kjeldstadli have looked more closely at cultural differences, and at how religious and cultural conflicts are handled. They talk about political, legal and social changes that have followed in the wake of immigration. A fruitful debate requires solid facts. This book is packed with historical knowledge, relevant analyzes and statistics. (less)
